

#### 2.7.4. Y-Turn

Y-Turn specifications shall be as shown in **Figure 2.7.**

Figure 2.7.: Y-Turn specifications

### Points to Ponder

In congested localities, where extension or modifications are done to existing buildings and developments, the Fire Accessway might be challenging. In such scenarios, Civil Defence might require additional Fire Fighting Systems, equipment and/or Transport buggies to compensate for the ill-defined Fire Accessways.
