

4. Application of Accessibility Features

4.1. Application of accessible features in a building , site or structure shall be as per Table 15.7.

Table 15.7.: Application of Accessible Features in a Building

ITEMS	REQUIREMENTS	EXCEPTIONS
1. ACCESSIBLE ROUTE AS PER TABLE 15.1. AND ICC ANSI 117.1	<u>1. SITE AND SITE ARRIVAL POINTS</u> i. Accessible Routes shall be provided within a site, from public transportation stops, accessible parking, accessible passenger loading zones, public streets and sidewalks to accessible building entrance. ii. At least one accessible route shall connect accessible buildings, accessible facilities, accessible elements and accessible spaces that are on the same site.	i. Other than in buildings or facilities containing or serving Type B units, an accessible route shall not be required between site arrival points and the building or facility entrance if the only means of access between them is a vehicular way not providing for pedestrian access. ii. An accessible route is not required between accessible buildings, accessible facilities, accessible elements and accessible spaces that have, as the only means of access between them, a vehicular way not providing for pedestrian access.
	<u>2. CONNECTED SPACES</u> i. When a building or portion of a building is required to be accessible, an accessible route shall be provided to each portion of the building, to accessible building entrances connecting accessible pedestrian walkways and the public way.	
	<u>3. EMPLOYEE WORK AREA</u> i. Common circulation areas in employee work space shall have accessible routes.	
	<u>4. PRESS BOXES</u> i. Press boxes in assembly areas shall have accessible routes.
